

Would your time spent on accounts be better spent elsewhere on your business?

Are you like the many other businesses who carry out this work themselves? Always struggling for time, frustrated you can't concentrate on doing what you do best—actually running your business?

If so, maybe it's time to talk to us.

A new type of financial service

Our clients tell us they work with us for all sorts of reasons. We're down to earth and approachable, always on hand and try to add extra value to everything we do. The most common reasons though are that we give them back the time they so desperately need and, most importantly, show them how quality management information can help them make the right decisions about where their business is going.

We provide real help for your business, working with you day to day to help you realise your goals. With Blenheim its not just about numbers, it's what they tell you about your business and how they can impact your future.

Our aim is to save you money, save you time and put your business in a position of real financial strength.

What our clients say

"Through working with Chris I now have the confidence, for the first time, in the financial reporting of the company. This has allowed me to focus on the future development of the business"

Dave Errington
CEO, Talis Information Ltd

"Chris is someone I can call on at anytime for business advice. He is someone I can trust who always puts my mind at rest"

Mike George
Cars @ Trade

**Put us to the test
with a FREE
financial review**

Give us your last set of financial accounts and we'll evaluate them to see how we can help you improve your profitability and get you in shape for a better future.
